Water Solutions for a Growing World!

RAIN TAPE is designed and built to be a high performance product, thanks to its large section labyrinth, which ensures a turbulent flow of water, and a high resistance to clogging, RAIN TAPE provides crops with a uniform distribution of water and fertilizers, with length of runs amongst the best on the market.

RAIN TAPE is produced in a wide range of flow rates, spacings and thicknesses.

Rain Tape 5/8"

Mil	Feet/Coil	Coils/Pallet	Lbs./Coil	Recommended Operating PSI	Maximum Operating PSI
5	11,400	16	63	10	13
6	9,800	16	62	10	13
7	8,500	16	58	10	15
8	7,200	16	56	10	15
10	5,900	16	52	10	17

Rain Tape 7/8"

Mil	Feet/Coil	Coils/Pallet	Lbs./Coil	Recommended Operating PSI	Maximum Operating PSI
6	7,200	16	56	10	13
7	6,500	16	55	10	15
8	5,500	16	53	10	15
10	4,200	16	51	10	17

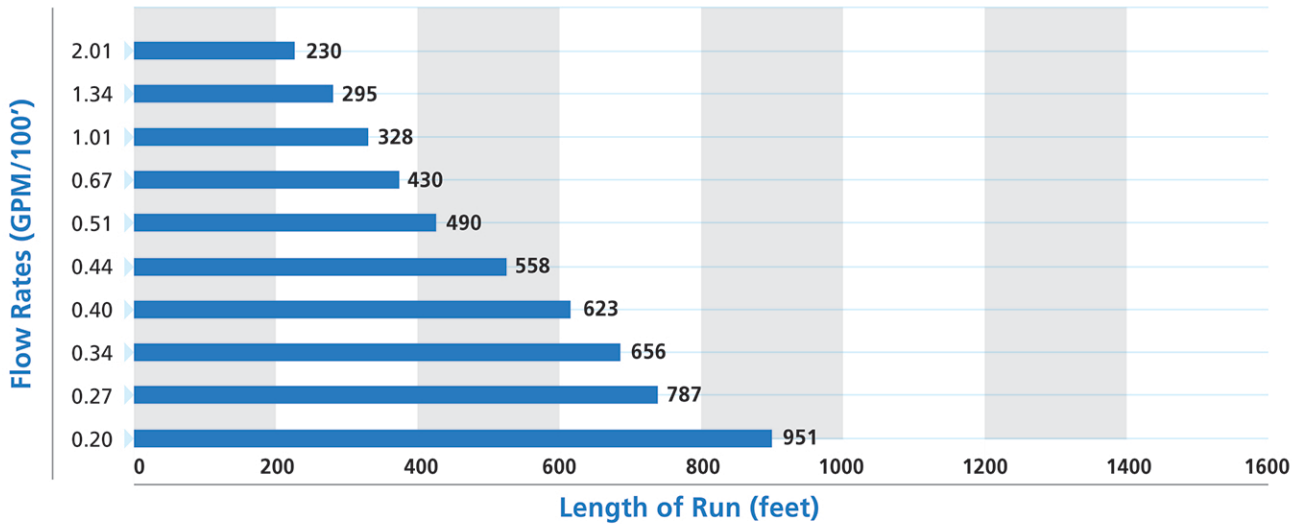

Spacing/Inches	5/8"	7/8"	GPH/Outlet	GPM/100'
4	x		0.26	1.34
			0.40	2.01
8	x	x	0.16	0.40
			0.26	0.67
			0.40	1.01
12	x	x	0.16	0.27
			0.26	0.44
			0.40	0.67
16	x	x	0.16	0.20
			0.26	0.34
			0.40	0.51

Other spacing and flow rate combinations available.

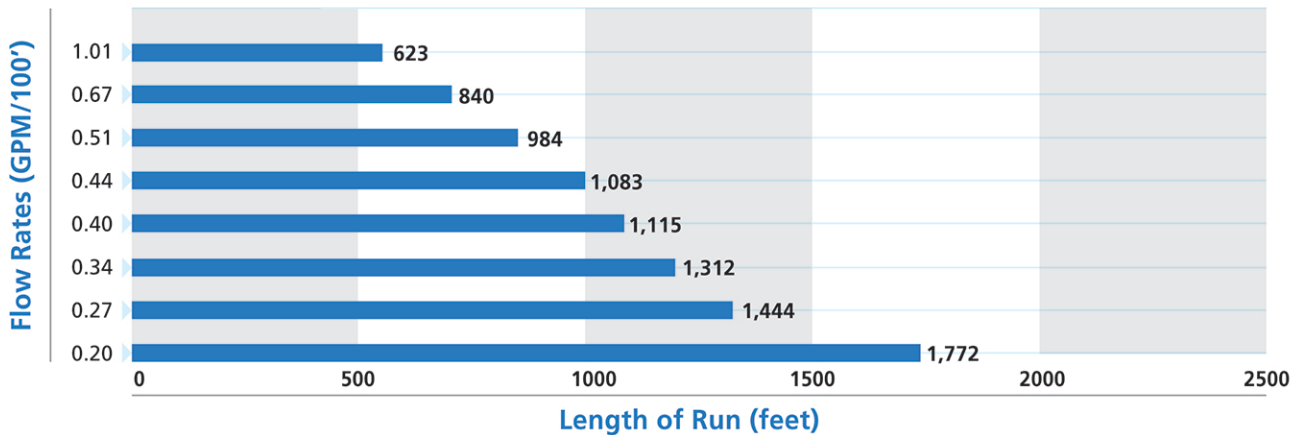

Maximum Length of Run for 90% Uniformity and 0% Slope
